# NCC Training – July 2018 – August 2019

## Why train at the NCC?

The NCC is working with industry and academia to identify, develop and deliver composites training programmes that meet the learning needs of employers and individuals. Working with our subjects specialists to create engaging content we have developed a composites training pathway for delegates at all levels. Our state-of-the-art industrial learning facilities provides opportunity for training to take place in a realistic and safe environment.

## Individuals:

We run an annual schedule of open courses for individual or small group bookings for employees or individual bookings.

## Employers:

We welcome working with you to create learning pathway from our current course content for group bookings, or to discuss a bespoke programme to meet your specific learning objectives.

## Group and Bespoke Training

If you are interested in arranging composites training for group please contact us to request a quote. We also welcome requests to discuss bespoke programmes, we are able to develop content to meet your specific learning and composites processes. \*Practical group training has the option of additional 2 days practical training following the core training days. Additional and bespoke training days are quoted upon request.

Group Training	Delegates	Day(s)	Price
Introduction to Composites (Theory & Practical)	10	1	£2360
Introduction to Composites (Theory Only – Classroom)	10	0.5	£1200
Introduction to Composites (Theory Only – Webinar)	20	0.5	£1400
Introduction to Manual Prepreg Techniques *	8	2	£3776
Intermediate Manual Prepreg Techniques *	8	2	£3776
Introduction to Resin Infusion Techniques *	8	2	£3776
AFP Familiarisation (Theory & Demo)	10	1	£2360
Appreciation of NDT for Composites	6	2	£3776
